5 Ports Desktop Switch
appSW5V2

Provides 5 Auto-Negotiation RJ45 ports at 10/100Mbps. All ports support Auto MDI / MDIX, eliminating the need for cables or Uplink ports. The Switch is Plug-and-Play and each port can be used as a general port or Uplink port and can be simply plugged into a server, hub, switch, router, etc., using a direct cable or a crossover cable.
The 5-port 10/100Mbps Switch provides low-cost improvements, it is easy to use, gives high performance and is seamless to convert your old network to a 100Mbps network.
This switch will double your network performance in data transmission. Its wire-speed switching, which sends the information packets can be as fast as your network is distributing the packages.
